OBJECTIVE

Results-driven Information Technology graduate with a strong analytical foundation in Data Structures and Algorithms and experience in Agile methodologies. Proven ability to manage complex end-to-end systems, such as a Bank Management System and real-time news aggregators, demonstrating a disciplined approach to process optimization and data integrity. Seeking to leverage my technical problem-solving skills and leadership potential to streamline last-mile logistics, enhance delivery efficiency, and drive operational excellence at Delhivery Ltd.

EDUCATION

Bachelor of Engineering in Information Technology

Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology

CGPA: 8.28 / 10.0

2022 – 2026

Baramati, Pune

Higher Secondary Certificate (HSC) - Science

Karmaveer Bhaurao Patil Mahavidyalaya, Pandharpur

Completed 2022

Percentage: 65.83%

Secondary School Certificate (SSC)

DHK Highschool, Pandharpur

Completed 2020

Percentage: 92.60%

EXPERIENCE

Software Engineering Intern – TechSaksham CSR Program (Microsoft)

Jan 2024 – Feb 2024

Edunet Foundation

Remote

- Designed and developed a **Healthcare Assistant Chatbot** using Hugging Face Transformers and Streamlit for interactive web deployment.
- Integrated **BERT-based question-answering models** to deliver context-aware medical guidance.
- Applied **Natural Language Processing (NLP)** techniques with NLTK for tokenization, stopword removal, and text preprocessing.
- Implemented domain-specific response logic for healthcare scenarios, enhancing chatbot relevance and accuracy.
- Deployed an intuitive **web interface** enabling real-time user interaction for health queries.

PROJECTS

Lakshya – Target Detection in Hate Speech (Final Year Project)

* **Tech Stack:** Python, NLP, Machine Learning, Deep Learning, Transformers

* Building a text classification model to detect and identify targets in hate speech using advanced NLP preprocessing and Transformer-based architectures.

* Implementing supervised learning pipelines and fine-tuning models for improved detection accuracy.

Bank Management System (Java Project) | [GitHub Link](#)

* **Tech Stack:** Java, Swing, JDBC, MySQL

* Developed a Java-based Bank Management and ATM Simulator System replicating real-world ATM operations.

* Implemented core banking features such as account creation, deposit, withdrawal, mini statement generation, and PIN change.

* Used JDBC for seamless integration with MySQL to ensure secure and persistent data storage.

* Designed an intuitive Swing-based GUI for efficient user interaction and smooth navigation between modules.

NewsKatta – Student News Portal (React.js Web App) | [Live Demo](#)

* **Tech Stack:** React.js, REST API, LocalStorage, CSS Grid

* Developed a real-time news aggregator dashboard fetching live data from Google News with topic-specific filtering and search functionality.

* Implemented persistent note-taking using LocalStorage, allowing users to save insights and export them as downloadable text files.

* Designed a responsive 3-column UI with smart image extraction and integrated WhatsApp sharing for seamless user engagement.

ACHIEVEMENTS

- **Treasure Hunt (College Level):** Secured **1st Place** and **2nd Place** in consecutive years; led a team to solve complex logic-based puzzles and navigation challenges under strict time constraints.
- **Shark Tank Idea Presentation:** Awarded **2nd Place** and **3rd Place** in consecutive years for pitching innovative business solutions; demonstrated strong presentation skills and the ability to articulate value propositions in a group setting.

TECHNICAL SKILLS

Programming Languages: Java, C++, Python .

Web Frameworks: HTML, CSS, JavaScript .

Databases: MySQL, PostgreSQL .

Tools Platforms: Git/GitHub, VS Code, Eclipse .

Core CS Concepts: Data Structures & Algorithms (DSA), OOPs, DBMS, OS Concepts, SDLC .

CERTIFICATIONS

- Citi – Technology Software Development Job Simulation – Forage
- Python Essentials 1 and 2 – Cisco Networking Academy
- MySQL Essential Training – LinkedIn Learning

- AWS Foundations: Cloud Essentials – AWS Training & Certification
- TCS iON Career Edge – Young Professional – TCS iON

LANGUAGES

English, Marathi, Hindi
